

Integrated Printing & Labeling Solutions

History

Founded in 1986 by José Pinto Cardoso in Santo Tirso, the **JÁJÁ Group** quickly established itself as a national benchmark in the fields of printing and labelling.

In **1993**, JÁJÁ Gestão e Investimentos, S.A. was created, consolidating the brands **JÁJÁ**

Printing Solutions, Grupo JÁJÁ and **BestLabel**, and strengthening the company's structure.

The group's expansion continued with the founding of **Prontigraf (1995)**, **Bestgraf (2008)** and **Solprint (2016)**, significantly broadening its presence in automatic identification, printing, labelling/application, coding and technical support.

With ongoing investment in technological innovation and process modernisation, the **JÁJÁ Group** now combines production capacity, quality and innovation to meet the needs of its clients.

Who We Are

Since 1986, **JÁJÁ Group** Printing Solutions has stood for excellence, innovation and trust.

An official **Toshiba** TEC distributor for **over 30** years and the leading manufacturer of labels, self-adhesive tags and tickets in Portugal, the group includes **Prontigraf**, **Bestgraf** and **Solprint**, offering complete **solutions** in printing, labelling, coding and weighing.

With a strong focus on **automation and sustainability**, JÁJÁ supports companies in modernising their operations through intelligent technologies and specialised technical services.

We are the **preferred choice** for businesses across the **food, beverage, pharmaceutical, industrial, automotive, tobacco, logistics** and many other sectors.

Mission, Vision and Ambition

- **Mission:** To transform the modern workplace with intelligent and sustainable technologies for product automation, coding and marking.
- **Vision:** To lead the transition towards a more productive, automated and sustainable future.
- **Ambition:** To be recognised as the leading driver of technological innovation and workplace efficiency.

Products & Solutions

Advanced solutions for variable data printing, coding, marking and labelling of packaging and pallets:
