Our Company

JÁJÁ long record of more than 25 years of service has endowed it with unmatched experience and a deep understanding of the most innovative printing techniques.

Our comprehensive range of presses including most printing methods allow us to achieve the best possible results. We cover the whole production cycle, from pre-press to finishing with utmost promptness and efficiency. Our processes include:

- UV flexography / Rotary silkscreen / Flatbed and rotary letterpress
- Cold and hot stamping / Variable printing / Sequential numbering
- Embossing / Lamination
- Combination of different printing and finishing systems, up to 8 colours
- Lamination of RFID and anti-theft with self-adhesive labels
- Production of fanfolded and leaflet-labels
- Production of collar tags in a roll
- Production of self-adhesive hangers in a roll

JÁJÁ also offers automatic identification, printing, and labelling systems: bar code printers and readers, variable label printing software, label printer-applicators, labelling machines, etc. to provide a complete solution of our clients' needs.

Our years of service attest that we have always lived up to our motto "Innovating for our customers". JáJá has always been a pioneer and an innovative company in Portugal.

JÁJÁ, are a representative in Portugal of **TOSHIBA** Tec, the largest world manufacturer of impression equipment's and bar code reading.

JÁJÁ in Portugal and TOSHIBA Tec at international level has a great experience in industrial applications in the field of printing and bars codes readers, leading the European market of equipment's of thermal transfer.

Our customers include many leading companies in different industrial sectors: health and beauty aids, food and drinks, automotive, pharmaceutical, industrial and home chemicals, textile, electronics, etc. They have maintained a lasting relationship with us, complete trust in our service, promptness, flexibility and count on our unfailing endeavours to engender higher value for their business.
